Professional Summary

MERN Stack Developer with 3 years of practical experience building responsive web applications, CRM systems, LMS platforms, and business websites from development through deployment. Strong working knowledge of React.js, Node.js, Express.js, MongoDB, and MySQL, with hands-on experience creating scalable admin dashboards, secure authentication systems, and REST API integrations.

Comfortable working across frontend and backend layers, improving application performance, and translating business requirements into reliable digital solutions. Also experienced in mentoring trainees and guiding real-time project development in full-stack technologies.

Professional Experience

Full Stack Developer (MERN)

Softlogic Systems — Chennai 2025 – Present

- Built scalable web applications using React.js, Node.js, Express.js, MongoDB, and MySQL for internal business operations and client-facing projects.
 - Developed CRM modules for lead tracking, customer records, sales pipeline monitoring, and task assignment workflows.
 - Created responsive admin dashboards and CMS-driven websites for service-based and product-focused businesses.
 - Integrated third-party APIs, inquiry forms, and reporting features to improve operational efficiency.
 - Improved SEO structure, mobile responsiveness, and loading performance across multiple websites.
 - Worked closely with UI/UX designers and stakeholders to deliver projects within business timelines.
-

Full Stack Developer

Innovate Technologies — Chennai June 2023 – Oct 2024

- Developed MERN-based applications with secure authentication, CRUD operations, and role-based access modules.
 - Maintained and upgraded existing applications by fixing bugs, improving features, and strengthening application reliability.
 - Managed project deployment using Git and version control workflows.
 - Trained 20+ students and working professionals in full-stack development through practical project guidance.
 - Supported trainees in building real-time applications and preparing for technical interviews.
-

Web Developer Intern

MS Labs Private Limited — Chennai Jan 2021 – 2023

- Developed and maintained 15+ websites including business portals and WordPress-based projects.
 - Built web pages, admin panels, and client-specific functionality based on business requirements.
 - Supported client issue resolution and feature updates across active websites.
 - Maintained website security and performance through regular monitoring and improvements.
-

Key Projects

CRM Platform

- Developed a CRM system to manage leads, customer interactions, task assignments, and reporting dashboards
- Implemented workflow automation and role-based access control
- Reduced manual operational effort through centralized business management

LMS Platform

- Built a learning platform supporting Admin, Instructor, and Student roles
 - Added course creation, enrollment tracking, content uploads, and progress monitoring
 - Improved API response performance through optimized database queries
-
